

# ICOOR 2020

8° International Congress on OCT  
and OCT angiography in Rome

2020 will be remembered as a difficult year for the world and for world ophthalmology.

As the Congress is an incredibly important event for the worldwide ophthalmologists, we are developing the congress in VIRTUAL form.

Our virtual congress center, on the other hand, will have an auditorium and 3 smaller rooms, to which others may be added, for parallel congress works and for symposia organized by the companies.

As usual, we are working hard to deliver the highest quality scientific contents by world-renowned experts in the field of imaging and clinical retina. The new format will be a new endeavor for the Organizing Committee.

We truly hope that you will join us for the  
8th INTERNATIONAL CONGRESS ON OCT ANGIOGRAPHY  
AND ADVANCES IN OCT.
