

# Vit Re EX

Dear Friends and Colleagues,

We are pleased to invite you to Venice for the 2nd Edition of VitReEx (Vitreo-Retinal Experience) meeting, next May 21-23, 2020.

We will discuss retinal diseases from both medical and surgical perspectives. Innovations in imaging and different treatment approaches will be our focus.

The meeting will include plenary sessions with debates and panel discussions, which will see the involvement of delegates from all over the world.

On the morning of the first day we will broadcast live surgeries from Rovigo Hospital in 3d technology, giving the surgeons the possibility to show their approach to a wide range of retinal cases.

We are hoping for a meeting that inspires and intrigues you. Looking forward to welcome you to Venice.

***Dr. Luigi Caretti, Prof. Bruno Lumbroso, Prof. Stanislao Rizzo***
