

# RETINA

## in progress

PRESENT & FUTURE

Welcome to the

9th Retina in Progress meeting.

International experts in retinal diseases will illustrate the latest developments in the field of retinal pathologies.

The speakers at the conference - an elite group of researchers and clinicians - will present the findings of their latest studies on the diagnosis and management of vitreoretinal diseases.

The congress will be an opportunity to hear firsthand about research results and find out what they mean to clinical everyday applications.

Chairmen: Alfredo PECE - Paolo LANZETTA  
President: Rosario BRANCATO
