

6TH INTERNATIONAL CONGRESS ON OCT ANGIOGRAPHY AND ADVANCES IN OCT

Rome

December 14 and 15, 2018

Ergife Palace Hotel

Via Aurelia, 619

RETINA: AMD AND MACULOPATHIES

- Exudative AMD: classification of atrophy and neovascularization in AMD
- Advanced retinal imaging of PED
- Non-exudative choroidal neovascularization
- CNV in hereditary dystrophies and other CNV

RETINA: RETINAL VASCULAR DISORDERS

- Diabetic retinopathy
- Pathways of disease and phenotypes of progression in Diabetic Retinopathy
- Retinal leakage, Macular Edema
- Treatment AMD and vascular disorders

OCT ANGIOGRAPHY AND UVEITIS

- Imaging outcomes and endpoints in Uveitis Clinical Studies
- OCT-A and beyond-multimodal imaging in uveitis: insights into pathology from technology
- White Dot Syndromes

ONCOLOGY

OTHER RETINAL DISORDERS

CHORIO CAPILLARIS AND CHOROID

- Advances in Choriocapillaris imaging (techniques) and imaging of the Choriocapillaris
- Update on Pachychoroid diseases

TECHNOLOGY

- OCT and OCTA techniques technology
- Technological developments by clinicians and engineers

ADAPTIVE OPTICS RETINAL IMAGING

ARTIFICIAL INTELLIGENCE in RETINAL IMAGING (including OCTA AND OCT)

OCT, OCTA AND HISTOLOGY

- Histological validation of OCT signatures in AMD
- Athophysiological mechanisms in the retinal capillary plexus, Muller Cell in macular disease

ROUND TABLE: OCTA AND EVERYDAY OPHTHALMOLOGY TODAY

Philiph J. Rosenfeld, Bruno Lumbroso, Caroline Baumal, Karl Csaky

How has OCTA has changed clinical management

WIDE FIELD IMAGING

QUANTITATIVE OCTA

NEUROOPHTHALMOLOGY

OCTA IN GLAUCOMA

OCT/OCTA IN CLINICAL TRIALS – READING CENTERS

QUICK FIRE SESSION
