

The first editions of our INTERNATIONAL CONGRESS ON OCT ANGIOGRAPHY, "EN FACE" OCT AND ADVANCES IN OCT were successful and intense meetings testifying that:

- *OCTA imaging is now a widely accepted imaging technology*
- *OCTA is already widely used in everyday ophthalmology and fulfills research and clinical needs*
- *OCTA attracts the best and brightest scientists, engineers, retina specialists and clinicians from all over the world*
- *Industry is actively pursuing the development of innovative OCTA imaging strategies*

The growing number of attendees (from 450 to 1450 in three years) shows that the meeting provides high value teaching.

*Due to worldwide interest we organize the **5TH INTERNATIONAL CONGRESS ON OCT ANGIOGRAPHY "EN FACE" OCT AND ADVANCES IN OCT.***

In our meeting you will:

- *hear firsthand about latest research results*
- *learn to use OCTA in everyday practice*
- *see by yourself the newest devices*
- *explore interesting, rare or difficult clinical cases in the Quick fire session*
- *meet personally great scientists, engineers, clinicians and colleagues from all over the world in the friendly and relaxed atmosphere that is a constant feature of our Rome OCT meetings.*

Bruno Lumbroso, Marco Rispoli

The meeting has its own personality: it brings together both the clinical and basic science communities, has high scientific contents and good organization, friendly atmosphere, sweet weather and Rome beauty.
