VitreoRetinalExperience

PROGRAM

THURSDAY 21ST MAY

AUDITORIUM

08:30 - 08:50 WELCOME RECEPTION and PARTICIPANTS REGISTRATION

08:50 - 09:00 OPENING CEREMONY

DIABETES: MEDICAL AND SURGICAL PEARLS

Chairs: Alessandro Castellarin, Donald D'Amico, Giuseppe Fasolino, Thomas Friberg

09:00 - 11:10

- 09:00 2021: the current approach to diabetic retinopathy therapy
Paolo Lanzetta
- 09:07 The new international classification of DME
Giacomo Panozzo
- 09:14 Long term efficacy and safety of intravitreal implant of dexamethasone for the treatment of DME
Sebastien Guigou
- 09:21 Fluocinolone acetonide: benefit-to-cost ratio for treatment of DME
Francesco Bandello
- 09:28 Effect of baseline subretinal fluid on treatment outcomes in VIVID-DME and VISTA-DME studies
Giovanni Staurenghi
- 09:35 Sub-threshold micropulse yellow laser: actual and future prospective
Marco Zarbin
- 09:42 Real benefits of delivery of corticosteroid to the suprachoroidal space
Ehab El Rayes
- 09:49 Treating DME: new molecules
Francesco Boscia
- 09:56 Benefits of topically administered neuroprotective drugs in early stages of diabetic retinopathy
Francesco Bandello
- 10:03 Vitreomacular interface abnormalities in patients with DME and their implications on the response to anti-VEGF therapy
Noemi Lois
- 10:10 Impact of vitrectomy on DME in treatment naive patients
Jerzy Nawrocki
- 10:17 Vitrectomy for diabetic retinopathy: when to use tamponades
Mario Romano
- 10:24 Pre-operative intravitreal Bevacizumab for proliferative diabetic retinopathy: impact on retinal tractional forces
Robert Avery
- 10:31 - 11:10 Discussion

11:10 - 11:30 Coffee break

PEDIATRIC RETINA

Chairs: Antonio Capone, Hany Hamza, Fanny Nerinckx, Şengül Özdek, Silvia Pignatto

11:30 - 12:30

- 11:30 Retinopathy of prematurity: what's new?
Antonio Capone
- 11:37 Retinopathy of prematurity: the role of Anti-VEGF
Antonio Ciardella

- 11:44 Stage 5a/5b of retinopathy of prematurity: anatomical and functional outcomes after surgery
Marco Mura
- 11:51 Surgical management of PFV spectrum
Şengül Özdek
- 11:58 Pediatric rhegmatogenous retinal detachment: approaches and role of prophylaxis
Carl Claes
- 12:05 Vitrectomy in familial exudative vitreoretinopathy
Hany Hamza
- 12:12 - 12:30 Discussion

INTRAOCULAR TUMORS: DIAGNOSIS AND SURGICAL APPROACHES

Chairs: Luis Amselem, José García-Arumí, Heinrich Heimann, Florian Balta

12:30 - 13:30

- 12:30 Small choroidal melanocytic tumors: risk factors for growth and metastasis
Raffaele Parrozzani
- 12:37 Multimodal imaging in diagnosis of choroidal melanoma and the role of OCT-angiography
Giovanni Staurenghi
- 12:44 Choroidal melanoma biopsy: surgical and laboratory approach
Martina Angi
- 12:51 Choroidal melanoma: surgical therapy
Hany Hamza
- 12:58 Choroidal melanoma: enucleation vs radiotherapy
Heinrich Heimann
- 13:05 Surgical treatment of retinal hemangioma
Jeroni Nadal
- 13:12 - 13:30 Discussion

13.30 - 14.30 Lunch

AMD: CHALLENGE FOR FUTURE

Chairs: Robert Avery, Francesco Bandello, Francesco Faraldi, Richard Rosen

14:30 - 16:45

- 14:30 Insights into AMD
Thomas Friberg
- 14:37 Geographic atrophy in AMD: the role of Müller cells and choriocapillaris and new morpho-functional approaches
Elisabetta Pilotto
- 14:44 Is there a treatment for intermediate dry AMD?
Hugo Quiroz-Mercado
- 14:51 Treatment of geographic atrophy in AMD with Zimura (avacincaptad pegol)
Marco Zarbin
- 14:58 Multimodal imaging in wet AMD: state of art
Giuseppe Querques
- 15:05 Gene therapy for AMD
Robert Avery
- 15:12 Port delivery system with ranibizumab for neovascular AMD
Alessandro Castellarin
- 15:19 The role of residual fluid on treatment outcomes in neovascular AMD
Francesco Viola

Thursday 21st May

- 15:26 Subretinal fluid in the prevention of macular atrophy in the treatment of neovascular AMD: a new drug-induced choroidal homeostasis?
Marco Zarbin
- 15:33 Vascular density changes in choriocapillaris around CNV after anti-VEGF treatment
Marco Rispoli
- 15:40 Anti-VEGF in AMD: a meta-analysis and meta-regression
Paolo Lanzetta
- 15:47 Oral tyrosine kinase inhibitors for wet AMD
Tim Jackson
- 15:54 The role of curcuma vehiculated by enterosoma technology in the patient with maculopathy: clinical experience
Davide Allegrini
- 16:01 Management of large submacular haemorrhages in AMD
Florian Balta
- 16:08 Chorioretinal changes after full macular translocation for wet AMD
Antonio Polito
- 16:15 Amniotic membrane application in AMD
Stanislao Rizzo
- 16:22 - 16:45 Discussion

16:45 - 17:00 Coffee break

VITREO-RETINAL PROLIFERATION: WHY AND HOW

Chairs: Daniele Tognetto, Jeroni Nadal, Jan Van Meurs, Chris Riemann

17:00 - 18:30

- 17:00 Severe vitreo-retinal proliferation: review of options and outcomes
Stanislao Rizzo
- 17:07 Management of tractional detachment in proliferative diabetic retinopathy: new frontiers
José García-Arumí
- 17:14 Relaxing retinotomy: yes, no, maybe
Donald D'Amico
- 17:21 Inferior PVR: which tamponade?
Cesare Mariotti
- 17:28 PVR after uneventful surgery for retinal detachment: risk factors and mistakes
Emilio Rapizzi
- 17:35 Pearls for management of intraretinal and subretinal PVR
Kourous Rezaei
- 17:42 Relapsed retinal detachment with PVR: timescale for second surgery and recommended approach
Jeroni Nadal
- 17:49 Vitreoretinal proliferation on inherited retinal diseases
Grazia Pertile
- 17:56 Management of diabetic tractional retinal detachment with 25G vitrectomy and 5700 cts silicone oil
Athanasios Nikolakopoulos
- 18:03 Differential diagnosis and management of retinal folds
Şengül Özdek
- 18:10 - 18:30 Discussion

FRIDAY 22ND MAY

8.00-13.00 LIVE SURGERY AUDITORIUM

Coffee station open from 10:00 to 11:30

Transmitted simultaneously from the Rovigo Hospital to the Congress Center terminal 103 (VE)

MODERATORS FROM OPERATING ROOM: *Donald D'Amico, Kourous Rezaei, Felipe Dhawahir-Scala*

MODERATORS FROM THE AUDITORIUM: *Antonio Capone, Faisal Fayyad, Tim Jackson*

SURGEONS: *Ernesto Bali, Luigi Caretti, Stratos Gotzaridis, Hassan Mortada, Jean-Antoine Pournaras, Siegfried Priglinger, Stanislao Rizzo, Remzi Avci, Rui Carvalho*

PRESENTATIONS FROM AUDITORIUM

- Intraoperative OCT: the latest updates
Ramin Tadayoni
- 3D technology in ophthalmology: state of the art
Chris Riemann
- Robotic-assisted surgery in ophthalmology
Marco Mura

13.00 - 14.00 Lunch

OCT ANGIOGRAPHY: PRESENT AND FUTURE PERSPECTIVE

Chairs: *Alessandro Castellarin, Francesco Boscia, Thomas Friberg, Bruno Lumbroso*

14:00 - 15:20

- | | |
|--------------|---|
| 14:00 | Guidelines for imaging the choriocapillaris with OCT-A
<i>Bruno Lumbroso</i> |
| 14:07 | The role of OCT-A in the evaluation of preclinical diabetic retinopathy
<i>Richard Rosen</i> |
| 14:14 | Changes of individual Diabetic Retinal Neovascularizations under treatment with intravitreal Anti-VEGF or Laser using Optical Coherence Tomography Angiography
<i>Sandrine Zweifel</i> |
| 14:21 | Retinal vascular impairment in Best vitelliform macular dystrophy assessed by means of OCT-A
<i>Maurizio Battaglia Parodi</i> |
| 14:28 | Retinal and choroidal vascular reactivity in Central Serous Chorioretinopathy
<i>Chiara Eandi</i> |
| 14:35 | Pachychoroid neovascularopathy: aspect on OCT-A
<i>Bruno Lumbroso</i> |
| 14:42 | Acute macular and peripapillary OCT-A modifications with intravitreal injections
<i>Richard Rosen</i> |
| 14:49 | The use of OCT/OCT-A to treat and control patients with nvAMD
<i>Sandrine Zweifel</i> |
| 14:56 | Implicating the choriocapillaris in progression of pathologic myopia
<i>Daniel Schwartz</i> |
| 15:03 -15:20 | Discussion |
| 15:20-15:30 | Greetings from the local Authority
<i>Fernando Antonio Compostella (General Director AULSS 5 Polesana)</i> |

15:30 - 15:45 Coffee break

SURGICAL RETINAL DISEASES: DISCUSSION WITH LIVE VOTING

Chairs: Remzi Avci, Athanasios Nikolakopoulos

15:45 - 16:25

- 15:45 Air tamponade in primary retinal detachment surgery (PRO)
Ernesto Bali
- 15:49 Air tamponade in primary retinal detachment surgery (CONS)
Tim Jackson
- 15:53 Small/medium idiopathic macular hole surgery: always inverted flap (PRO)
Jerzy Nawrocki
- 15:57 Small/medium idiopathic macular hole surgery: always inverted flap (CONS)
Ehab El Rayes
- 16:01 Large myopic macular holes: macular buckling may go beyond vitrectomy (PRO)
Jan Van Meurs
- 16:05 Large myopic macular holes: macular buckling may go beyond vitrectomy (CONS)
Hassan Mortada
- 16:09 Rhegmatogenous primary retinal detachment: I prefer to buckle (PRO)
Heinrich Heimann
- 16:13 Rhegmatogenous primary retinal detachment: I prefer to buckle (CONS)
Stratos Gotzaridis
- 16:17 23G vitrectomy still guarantees the best performance in retinal detachment surgery (PRO)
Hany Hamza
- 16:21 23G vitrectomy still guarantees the best performance in retinal detachment surgery (CONS)
Felipe Dhawahir-Scala

DIFFERENT SURGICAL APPROACHES FOR MACULAR HOLE

Chairs: Luigi Caretti, Marta Figueroa, Stratos Gotzaridis, Ramin Tadayoni

16:25 - 18:50

- 16:25 New classification of the international LMH study group: lamellar macular holes, premacular membrane foveoschisis and macular pseudoholes
Ramin Tadayoni
- 16:32 Non penetrating macular holes: when to act, when to wait
Siegfried Priglinger
- 16:39 Long term surgical outcome after vitrectomy for the treatment of tractional and degenerative lamellar macular holes
Marco Coassin
- 16:46 Surgery for idiopathic full thickness macular hole
Noemi Lois
- 16:53 Autologous platelet - rich plasma for macular holes
Marta Figueroa
- 17:00 Intraoperative macular hole closure technique
Marzio Chizzolini
- 17:07 Inverted ILM flap macular hole surgery: up to date
Jerzy Nawrocki
- 17:14 Macular hole closure patterns: cover vs fill-in inverted ILM peeling techniques
Tommaso Rossi
- 17:21 Full-thickness macular holes - Is an inverted flap procedure the better choice?
Ferdinando Bottoni
- 17:28 Comparison of inverted flap and subretinal aspiration technique in full-thickness macular hole surgery
Giamberto Casini

Friday 22nd May

- 17:35 Inverted ILM flap for the treatment of myopic macular holes: healing processes and morphological changes in comparison with complete ILM removal
Grazia Pertile - Maurizio Mete
- 17:42 Persistent, chronic and large macular holes: central retinal detachment and macular hole hydrodissection techniques
Carl Claes
- 17:49 Persistent full thickness macular hole: autologous neurosensory retinal free patch transplantation
Daniele Tognetto
- 17:56 Recurrent macular holes: the human amniotic membrane plug
Stanislao Rizzo
- 18:03 Autologous platelet-rich plasma for high myopic macular holes with retinal detachment
Marta Figueroa
- 18:10 Intravitreal ocriplasmin on vitreomacular traction and full-thickness macular holes: real-life experience
Peter Szurman
- 18:17 Italian real-life experience on the use of ocriplasmin
Francesco Barca
- 18:24 - 18:50 Discussion

SATURDAY 23RD MAY

AUDITORIUM

RETINAL PROSTHESIS AND GENE THERAPY: PRESENT AND FUTURE

Chairs: Lyndon Da Cruz, Eugene De Juan, Heinrich Heimann, Fanny Nerinckx

08:00 - 09:00

- 08:00 Embryonic stem cell derived patch for the treatment of retinal disease
Lyndon Da Cruz
- 08:07 Cell based therapy for retinal disease: clinical trials
Marco Zarbin
- 08:14 Robotic systems for the administration of new gene therapies
Lyndon Da Cruz
- 08:21 What we have learned about Argus II
Fabio Patelli
- 08:28 Management of retinitis pigmentosa: from neuroprotection to gene therapy
Francesco Parmeggiani
- 08:35 Voretigene Neparvovec: an emerging gene therapy for the treatment of inherited blindness
Marco Mura
- 08:42 - 09:00 Discussion

OCULAR TRAUMATOLOGY: STATE OF ART

Chairs: Faisal Fayyad, Paolo Lanzetta, Fanis Pavlidis, Kourous Rezaei

09:00 - 10:00

- 09:00 Severe ocular trauma: timescale for surgical reconstruction
Carl Claes
- 09:07 Advanced eye damage: when to give up?
Ernesto Bali
- 09:14 Complex cases in ocular trauma
Faisal Fayyad
- 09:21 Lens dislocation after blunt trauma: techniques, tips and pitfalls
Athanasios Nikolakopoulos
- 09:28 Surgical management in pediatric trauma
Florian Balta
- 09:35 Choriorretinectomy and extended ILM peeling in penetrating and perforating ocular trauma
Hassan Mortada
- 09:42 - 10:00 Discussion

10:00 - 10:20 Coffee break

ANTERIOR SEGMENT AND VITREO-RETINAL SURGERY: MEDICAL AND SURGICAL MANAGEMENT OF PARTICULAR CASES

Chairs: Roberto Cian, Stephen McLeod, Chris Riemann, Daniel Schwartz

10:20 - 12:00

- 10:20 Sutureless intrascleral posterior chamber intraocular lens fixation
Fanis Pavlidis
- 10:27 Secondary iris-claw intraocular lens implantation for the treatment of aphakia: anterior chamber versus retropupillary implantation
Matteo Forlini
- 10:34 Multifocal intraocular lens implantation in vitrectomy plus phacoemulsification for epiretinal membrane
Chris Riemann
- 10:41 Is there a role for the Light Adjustable Lens in vitreoretinal surgery?
Daniel Schwartz

Saturday 23rd May

- 10:48 Combined femto-assisted cataract and vitreo-retinal surgery
Giorgio Beltrame
- 10:55 Management of glaucoma after vitreoretinal surgeries: medical and surgical treatments
Giorgio Marchini
- 11:02 Opira 4.0: the next step in accommodating lenses
Eugene De Juan
- 11:09 Corneal complications after vitreoretinal surgeries
Luigi Fontana
- 11:16 IOL choice considerations in combined cataract surgery and vitrectomy
Stephen McLeod
- 11:23 Corneal endothelial surgeries in aphakia
Emilio Pedrotti
- 11:30 Combined penetrating keratoplasty, Eckardt temporary keratoprosthesis and vitreoretinal surgery
José García Arumi
- 11:37 Retinal detachment surgery in eyes with osteo-keratoprosthesis
Jeroni Nadal
- 11:44 - 12.00 Discussion

RETINAWS: MY COOLEST SURGICAL VIDEO

Moderator: Kourous Rezaei

Hany Hamza, Stratos Gotzaridis, Jeroni Nadal etc.

12:00 -13:00

13.00 - 14.00 Lunch

ITALIAN WHAT'S NEW

Chairs: Giorgio Beltrame, Marzio Chizzolini, Vito De Molfetta, Emilio Rapizzi

Moderators: Claudio Azzolini, Paolo Arpa, Giuseppe Scarpa, Stefano Zenoni

14:00 - 15:30

Patrizia Busatto - Gianluca Besozzi - Luca Cappuccini - Marco Codenotti - Paolo Fantaguzzi

Rocco De Fazio - Giuseppe Lo Giudice - Umberto Lorenzi - Andrea Mercanti - Tommaso Micelli Ferrari

Claudio Panico - Maurizio Postorino - Paolo Radice - Federica Romanelli - Paolo Rossini - Carlo Salati

Paolo Tassinari - Marco Tavolato - Antonio Toso - Giorgio Santin - Agostino Vaiano - Marco Vecchi

MEDICAL RETINAL DISEASES: DISCUSSION WITH LIVE VOTING

Chairs: Thomas Friberg, Marco Zarbin

15:30 - 16:05

- 15:30 Anti-VEGF therapy is the best treatment for proliferative diabetic retinopathy (PRO)
Robert Avery
- 15:33 Anti-VEGF therapy is the best treatment for proliferative diabetic retinopathy (CONS)
Noemi Lois
- 15:37 Laser still has a role in treatment of DME (PRO)
Francesco Boscia
- 15:40 Laser still has a role in treatment of DME (CONS)
Alessandro Castellarin
- 15:44 OCT-A could replace angiography (PRO)
Richard Rosen
- 15:47 OCT-A could replace angiography (CONS)
Giovanni Staurenghi
- 15:51 Low fluence PDT is the best treatment for CSC (PRO)
Sandrine Zweifel

- 15:54 Low fluence PDT is the best treatment for CSC (CONS)
Paolo Lanzetta
- 15:58 Anti-VEGF on a PRN basis is a safe option for the treatment of regressed wet AMD (PRO)
Quiroz-Mercado Hugo
- 16:01 Anti-VEGF on a PRN basis is a safe option for the treatment of regressed wet AMD (CONS)
Thomas Friberg

16:05 - 16:25 Coffee break

VITREO-RETINAL SURGERY

Chairs: Eugene De Juan, Ehab El Rayes, Athanasios Nikolakopoulos, Siegfried Priglinger

16:25 - 18:10

- 16:25 Development of surgical management in primary rhegmatogenous RD treatment
Donald D'Amico
- 16:32 Hypersonic vitrectomy: an update
Yannick Le Mer
- 16:39 Retained lens material removal: the nitinol basket-assisted vitrectomy
Marco Mura
- 16:46 Novel vitreous body replacement
Peter Szurman
- 16:53 When air, when gas and when oil: how do I choose?
Tim Jackson
- 17:00 27-gauge vitrectomy surgery: is smaller better?
Felipe Dhawahir-Scala
- 17:07 Retinal toxicity of medical devices used during vitreoretinal surgery
Mario Romano
- 17:14 Surgical management of optic disc pit maculopathy
Remzi Avci
- 17:21 25-Gauge vitrectomy and incomplete drainage of subretinal fluid for the treatment of primary rhegmatogenous retinal detachment
Stratos Gotzaridis
- 17:28 Pharmacologic prevention of PVR
Antonio Capone
- 17:35 Microscopic observation of proliferative membranes in fibrocontractive retinal disorders
Rino Frisina
- 17:42 Epiretinal membranes in eyes with vitreomacular traction
Rodolfo Mastropasqua
- 17:49-18:10 Discussion

MYOPIA

Chairs: Ernesto Bali, Giacomo Panozzo, Ehab El Rayes, Peter Szurman

18:10 - 19:30

- 18:10 Staging and management guidelines of Myopic Traction Maculopathy
Giacomo Panozzo
- 18:17 Natural history and preoperative prognostic factors in myopic foveoschisis
Ramin Tadayoni
- 18:24 Myopic traction maculopathy with inner or outer lamellar holes
Marta Figueroa
- 18:31 Managing of serous retinal detachment in dome-shaped maculopathy
Giuseppe Querques

Saturday 23rd May

- 18:38 Fovea-sparing ILM peeling in myopic foveoschisis, without macular buckling
Hassan Mortada
- 18:45 Macular buckling surgery in myopic traction maculopathy
Jan Van Meurs
- 18:52 Retinal detachment in high myopia: new perspectives
Tommaso Rossi
- 18:59 A human amniotic membrane plug to manage high myopic macular hole associated with retinal detachment
Tomaso Caporossi
- 19:06 Multimodal imaging of spontaneous suprachoroidal hemorrhage associated with pathologic myopia
Michele Coppola
- 19:13 - 19:30 Discussion

SATURDAY 23RD MAY

FOYER ROOM

FREE PAPERS

Chairs: Hugo Quiroz-Mercado, Sandrine Zweifel

08:30 - 10:00

Something is floating in my eye

Vladislav Dzinic, Ana Oros

Combined therapy in a rare case of Retinal Astrocytic Hamartoma

Maria Grazia Sammarco, Andrea Scupola, Monica Maria Pagliara, Maria Antonietta Blasi, Stanislao Rizzo

Internal limiting membrane inverted flap technique for lamellar macular hole

Florian Balta

Subthreshold yellow micropulse laser photostimulation for persistent sub-retinal fluid after vitreoretinal surgery

Andrea Saitta, Paolo Rossini, Adriana Bratu, Domenico D'Eliseo

Long-term outcomes of surgical treatment of massive submacular haemorrhage in patients with neovascular age-related macular degeneration

V Rudenko, M Pshenichnov, A Khudyakov

OCT angiography findings in macula-on vs macula-off rhegmatogenous retinal detachment: a prospective study

Francesco Barca, Ruggero Tartaro, Damiano Pugi, Chiara Lenzetti, Lucia Finocchio, Gianni Virgili, Tomaso Caporossi, Fabrizio Giansanti, Daniela Bacherini, Alfonso Savastano, Stanislao Rizzo

Modern Techniques & Indications for Scleral Buckling Surgery

Nakhoul Nakhoul, William H. Ross, David Albani, Andrew Merkur, Andrew Kirker

Localized versus 360-degree intraoperative laser retinopexy in cases of rhegmatogenous retinal detachment

Pasquale Loiudice, Marco Nardi, Michele Figus, Giamberto Casini

Microcurrent Stimulation in the Treatment of Ocular Disease and Case Presentation of 3 Stargardt's Degeneration patients

Edward Kondrot

Primary Occlusive Panvasculitis with Segmental Periarterial Plaques

Claudia Bruè, Richard F. Spaide

Putting eye before "I": a twelve years experience of pneumatic retinopexy

Francesco Pellegrini, Erika Mandarà, Marco Pellegrini, Alessandra Cuna, Ettore Caruso, Daniele Brocca, Francesca Leonardi, Flavio Foltran

Intraocular amelanotic tumours: clinical differentiation of benign from malignant lesions

Maria Grazia Sammarco, Andrea Scupola, Monica Maria Pagliara, Maria Antonietta Blasi, Stanislao Rizzo

Rhegmatogenous retinal detachment with peripheral retinal breaks and macular hole treated by two consecutive vitrectomies

Florian Balta

NURSE COURSE: ASSISTIVE AND TECHNICAL ORGANISATIONAL ASPECTS AND INNOVATIONS IN VITREO-RETINAL SURGERY

Chairs: Lucia Dalbianco, Andrea Franchin, Sabrina Morroni, Simonetta Tescaro, Cristina Vatovec

10:00 - 13:00

10:00 Eckard's temporary keratoprosthesis: indication for use

Maria Caterina Zardo

10:12 Safety of the patient in vitreoretinal surgery: instruments and technical organisational modalities in the surgical setting

David Zucchini

10:24 Evolution of the vitreoretinal surgery from 20 to 27 Gauge

Cristina Vatovec

Saturday 23rd May

10:36	News in ophthalmic surgery <i>Catiuscia Zuin</i>
10:48	Intravitreal injections: recruitment, management of big numbers and follow up <i>Simone Grandi</i>
11:00	Correlation between buffering systems and the positioning of the vitrectomized patient <i>Andrea Franchin</i>
11:12	The hospital discharge of the complex ophthalmic patient <i>Celeste Cutugno</i>
11:24	Video tutorial in vitreoretinal surgery: first experience in our operating department <i>Laura Bessone</i>
11:36	Integrated care pathways of the patient with retinal detachment <i>Denise Brambilla</i>
11:48	Prevention and management of ocular infections in vitreoretinal surgery: roles, responsibilities and strategies <i>Agnese Grazzini</i>
12:00	Optimisation of resources and customisation of surgical procedures in vitreoretinal surgery <i>Raffaella Marega</i>
12:12	Vitesse Hypersonic vitrectomy system: a revolutionary approach <i>Simonetta Tesaro</i>
12:24	Combined vitrectomy: has the posterior pole surgery influenced the anterior segment surgery? <i>Paola Verardo</i>
12:24 - 12:50	Discussion

EUROPA ROOM

Thursday 21st May 13.00 - 14.00
LUNCH SYMPOSIUM NIKON

AUDITORIUM

Friday 22nd May 13.00 - 14.00
LUNCH SYMPOSIUM BAUSCH & LOMB
TRANSFORMING RETINAL SURGERY: NEW TECHNOLOGIES AND TECHNIQUES

MURANO ROOM

Friday 22nd May 14.00 - 18.00
Saturday 23rd May 09.00 - 13.00
DORC WET LAB

STAND AREA

From Thursday 21st May to Saturday 23rd May 09.00-13.00 14.00-18.00
DRY LAB WITH SURGICAL SIMULATOR
